LB-1320 Digital LCD Stereo Microscope

It features a high resolution LCD screen to generate genuine photo and video. This product integrates magnification, imaging, display and built-in LED illumination functions.

Based on 2D observation, 3D angle attachment is added to obtain 3D multi-angle observation, which makes inspection easy and comfortable.

With a 5.0MP high definition built-in camera, 8 inches high resolution LCD screen, images can be easily view through the screen.

Images and videos can be stored in the SD card.
